

MYSTERY BAG

MATERIALS

A bag containing 10- 12 real and familiar objects that fit in a Childs grasp

AIM

Refinement of the stereognostic sense

PRESENTATION

1. Ask the child to bring a chowki and place it on the floor
2. Take the child with you to the shelf and introduce the material
3. Ask the child to bring the mystery bag to the chowki
4. Open the bag, and insert your dominant hand into the bag.
5. Feel one object, feel it again to know what it is, name the object
6. Take it out show it to the child and place it on the chowki
7. Do the same for 2 to three objects
8. The rest the child can feel it, name it and place it on the chowki.
9. Once the child is done, Mix up everything and put it back into the bag.
10. Now invite the child to do the activity as long as he wants

Exercise 1- the child zone activity as shown in the presentation
